Engineering Council, UK (ECUK)

Professional Affiliations

Member
The Institution of Engineering
and Technology, Savoy Hill,
London, UK

David has over 40 years of Design / Managerial experience in the Electrical, Electronic and Software industries. He has been instrumental in developing solutions for the following companies:

- Gresham Lion Electronics, Hanworth, Middlesex, UK
- Data Recording Equipment (a division of Control Data Corporation), Staines, Middlesex, UK
- Teradyne, Windsor, Berkshire, UK
- Military division of Racal Automation, Slough, Berkshire, UK
- IGE Medical Systems (a division of GE), St. Albans, Hertfordshire, UK
- Philips Automation, Eindhoven, Netherlands
- European Pattern Office, The Hague, Netherlands
- International Financial Data Services (a division of DST), Basildon, Essex, UK
- Fujitsu Services, Bracknell, Berkshire, UK
- Perot Systems, a division of DELL, Limerick, Ireland

As a former business owner of a number of UK companies and an investor in the US property market David has always had a passion for business, so when the opportunity presented itself in 2005 to purchase GatorSkitch it seemed to be the obvious next step.

David's experience at putting together small and large teams that use professional procedures and practices will help to take GatorSkitch to the next level. His expectation is that GatorSkitch will become the company of choice by 2020.
